I _projectorange

This collection of recent work illustrates the range of projects with which the studio engages accross East Anglia. From individual houses and housing developments in Suffolk, to the venerable Swan Hotel in Southwold.

We are mindful that the Climate Emergency now shapes how we design and we are committed to re-use and retrofit wherever viable, sourcing sustainably and working with agility.

In 2024 Project Orange was named as one of the 'front runners' of the inaugural Regenerative Design Index and we won the Babergh and Mid-Suffolk Construction Innovation Award.

Christopher Ash and James Soane
Founders Project Orange (1997)
